

Tuccio Development, Inc., established in 1994, is a family owned and operated general contracting firm that designs and custom builds high quality luxury homes in western Connecticut. Having built over 1,000 distinctive homes in the Ridgefield, New Milford, New Fairfield and Brookfield areas, we have a highly experienced administrative staff and construction crew. Each of our suppliers is carefully chosen for the quality of their work and materials, and has been with us for many years. By combining modern building techniques, high quality materials and workmanship, and experienced project management, we build homes with the finely crafted details and elegant design your family will appreciate for years to come.

Testimonials

“Edward, I wanted to send a note to say how much we enjoyed working with Danny and your team on the Montgomery residence. We came into the project late and appreciated your working with us on some of the changes we suggested. The finished product is a well designed, quality home with the added value of professional interior design.

Faced with an uncertain economy and a changing home market we all need to work together to develop new strategies for success. Donna and I would welcome the opportunity to discuss future projects with you.”

Vicki Taylor-Bloch

At Home Design
